The build steps are phases. Phase 1 and Phase 2 are complete.

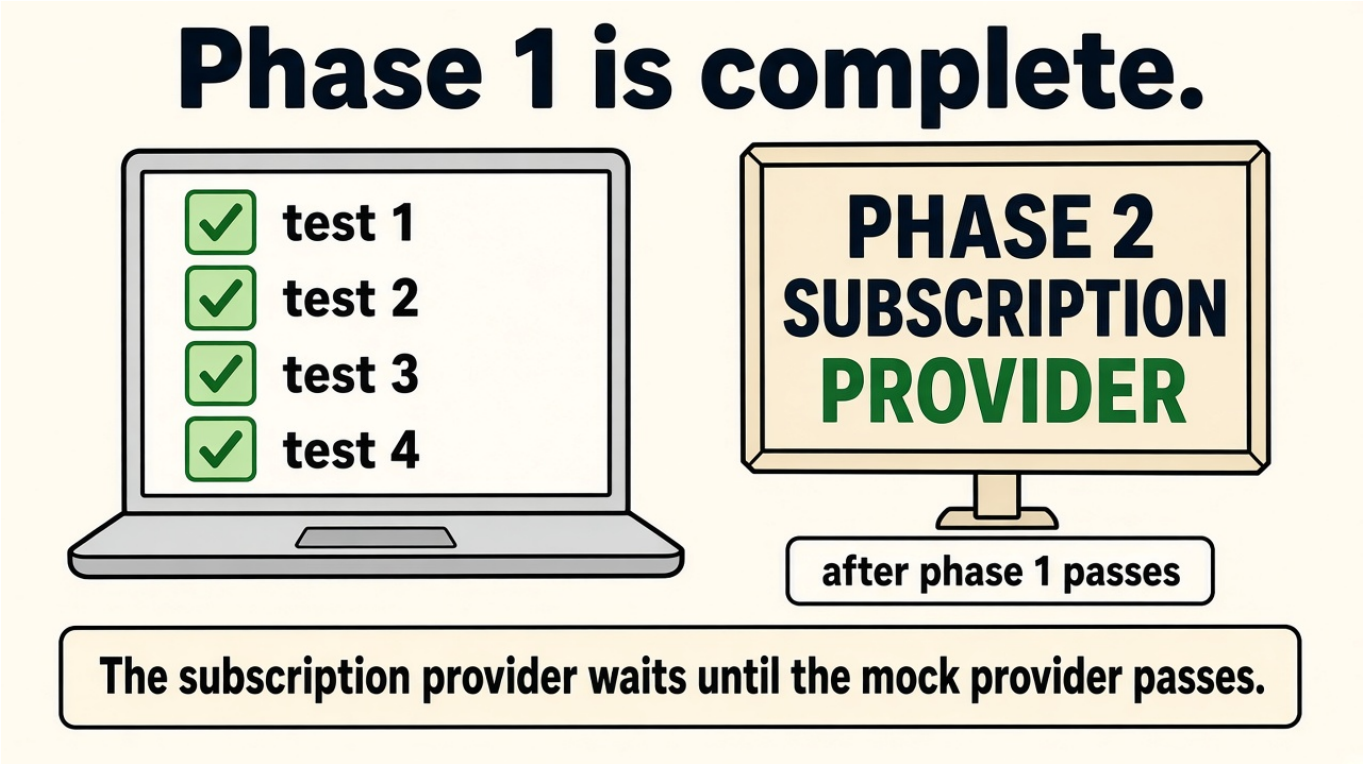

I design one phase. You build it. We read it together. Then the next phase.

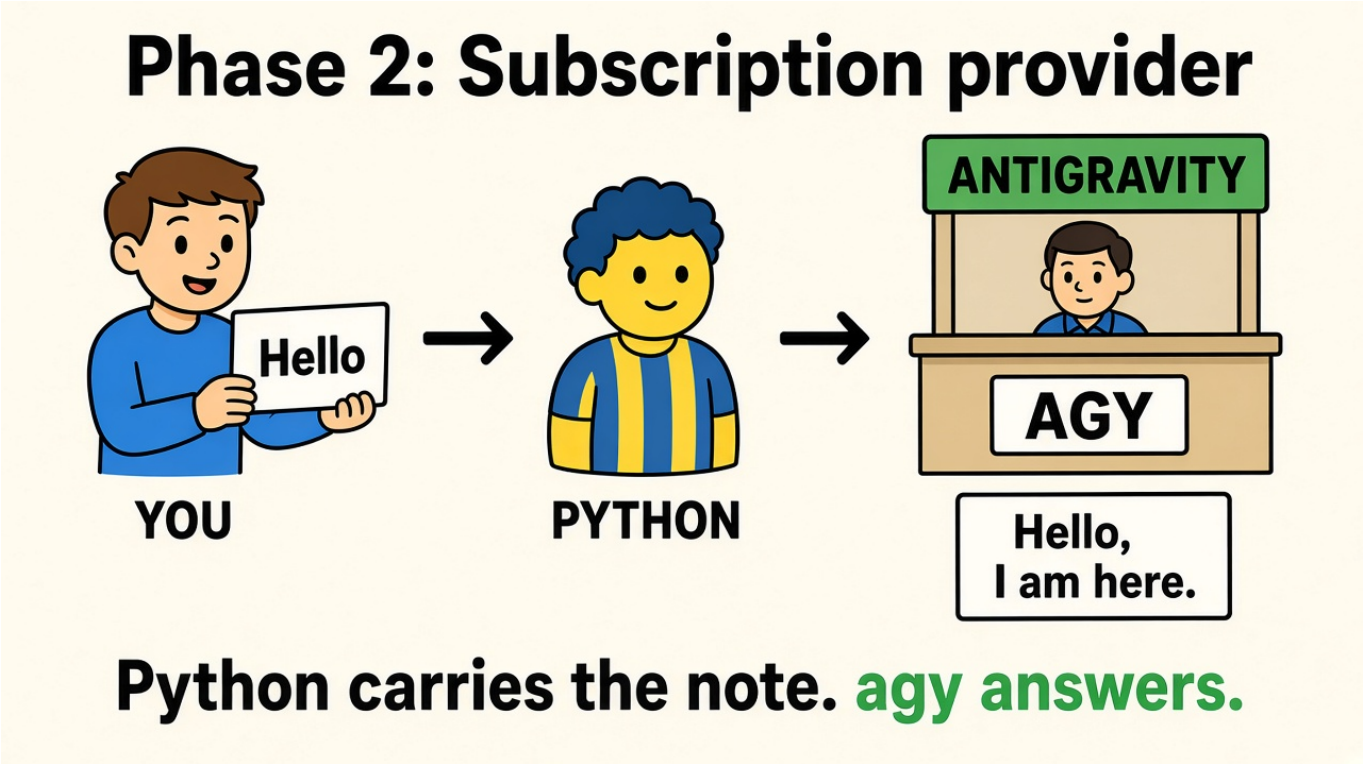

Six phases, in order. Phase 1 and Phase 2 are complete. Phase 3 is next.

Phase 1 is the mock provider. Four tests. No key and no Colab.

Phase 1 is complete when those four tests pass.

Phase 2 is the subscription provider. Python carries the note. agy answers.
